

Halwin Primary School

Drugs and Substance Misuse Policy

Created: Nov 2020

Amended:

Reviewed: Sept 2022 Next Review: June 2024

Rationale

Halwin school is committed to the health and safety of its members and will take action to safeguard their wellbeing.

Context

This policy applies to all staff, governors, pupils, contractors and visitors to the school site. This policy links with the following other policies:- PSHE

The term 'drug' is used to include:

- illegal substances
- substances which are legal, but which can be misused*
- all over the counter prescription medicines

*Some of these substances would not be acceptable for possession and use by pupils on school premises, e.g. alcohol and tobacco, psychoactive substances. Other substances, for example, glue, solvents and over-the-counter medicines, would be acceptable for possession and use on school premises, provided this is for their proper, intended purpose.

Purpose of the Policy

This document acknowledges our school's role in drug education and helps to ensure a whole school programme appropriate to our pupils' needs. Our school provision incorporates knowledge and understanding, attitudes and personal and social skills that help pupils to lead healthy lives.

Roles and responsibilities

The Headteacher takes overall responsibility for this policy and its implementation, for liaison with the Governing Body, parents, Local Authority and appropriate outside agencies. The Headteacher will ensure that all staff dealing with substance issues are adequately supported and trained. The Governing Body will be involved in substance education and substance related incidents in the same manner as any other matter concerning the direction of the school.

Drug Education Aims and objectives

To provide all children with accurate information appropriate to the child's age and/ or needs. To present facts in an objective, balanced and sensitive manner suitable to the age and maturity of the children.

To provide children with opportunities to:

- Become accurately informed on the effects, good or bad, of drugs on health.
- Explore attitudes and values around drug misuse.
- Practise decision-making skills.
- Make healthy informed choices.
- Become aware of peer pressure.
- Develop assertive skills.
- Consider the consequences of risk taking.
- Learn how to access sources of help and information.

- Recognise the benefits of a healthy lifestyle.
- Evaluate media messages on drug use.

Drug Education programme

Foundation Stage Early Learning Goals

- To recognise the importance of keeping healthy

Key Stage 1

To learn about the importance of medicine safety

To recognise that some substances can help or harm the body

Key Stage 2

- To take action based on responsible choices
- To identify the different kinds of risks associated with the use and misuse of a range of substances (alcohol, tobacco, drugs and substance abuse) and the impact that misuse of substances can have on individuals, their families and friends
- To make responsible, informed decisions relating to medicines, alcohol, tobacco and other substances and drugs
- Understand why it is important to focus on keeping healthy and take appropriate action
- Understand the term 'risk' and how it links to consequence
- Understand the term 'addiction' and know some of the different forms it can take
- Recognise the link between choice and consequence
- Become familiar with the names of the most common drugs
- Understand how advertising influences our choice

Management of drugs in school

Any use of illegal or unauthorised drugs, including tobacco and e-cigarettes, are not acceptable at any time within the boundary of the school and other situations where staff are supervising pupils e.g. off-site activities, visits and school trips.

Prescribed medicines for pupils who need to take them are kept in the office or the staffroom fridge, or are taken out by a staff member on school visits. Prescribed drugs will be administered to children by appropriate staff at prescribed times, following clear instructions. Inhalers for children are kept in a box in the staffroom.

Halwin School has a no-smoking policy and has a responsibility to promote a healthy life-style.

Although e-cigarettes are not covered by smoking legislation, their use is also not allowed on school premises by staff, parent/carers, contractors or visitors.

Alcohol will not normally be kept or consumed on school premises except for social occasions e.g. FoH events or staff social events. Permission to consume alcohol on school premises should be sought from the Headteacher in advance who will ensure appropriate licencing is in place

No illegal drugs, including psychoactive substances, are allowed to be brought on to, or used on school premises.

If a teacher is concerned that a pupil is at risk from drugs misuse then he/she should speak to a the Headteacher and/or designated safeguarding lead. If a pupil voluntarily discloses information about drug misuse, it is important to:

Not over-react

Listen to the pupil's point of view

Not guarantee confidentiality

Talk to designated members of staff

Drug Related Incidents

Guiding Principles

The school is aware of its legal responsibilities in regard to drug related incidents and in responding to them. The school's first responsibility is for the welfare of the individual, balanced with the need to protect the community as a whole.

The Headteacher will normally be responsible for co-ordinating the management of drug related incidents, offering sources of support and liaising with outside agencies. The school acknowledges the importance of its pastoral role and will support all concerned in ensuring the well-being of its pupils.

A drug related incident includes any incidents involving any drug that is unauthorised and therefore not permitted within the school boundaries. These can involve a parent/carer collecting their child while under the influence of alcohol, a pupil misusing another pupil's inhaler; disclosing concern about a family member who is abusing drugs or a pupil giving medicines to another pupil at the school.

A drug related incident may also include any of the following:

Finding used syringes in the school grounds

Possession of drugs by an individual on school premises

Use of drugs by an individual on school premises

Individuals disclosing information about their or others' drug use

Rumours or reports of drug possession or drug use

In all drug-related incidents, the following will apply:

The Headteacher and/or DSL will be informed immediately

All situations will be carefully considered before deciding on the response

The needs of the pupil(s) will always come first, whilst also taking into account the needs of the school as a whole

Parents/carers will be involved at an early stage and throughout any investigation, unless linked to an abuse case

Support agencies, including the police, will be involved as appropriate and in keeping with legal requirements

Incidents will be reported to the Chair of Governors

Possible responses might be:

Support and counselling

Where a school rule relating to drug use is broken, sanctions will be given. The type of sanction will depend on the nature and degree of the offence. Decisions about sanctions will be made by the Headteacher and consistent with the Behaviour Policy.

Procedures

It is very rare for primary aged children to misuse drugs in school; however, we believe it is important to be prepared should an incident occur.

All drug related incidents will be reported to the Headteacher. The Headteacher, in consultation with key staff, will decide on the responses.

Hearsay

Drug use is often discovered by hearsay. Information should be passed on to the Headteacher and recorded as hearsay evidence.

Suspicious Behaviour

Behaviour that could indicate involvement with drugs should be immediately reported to the Headteacher and logged so that patterns of behaviour can be observed and concerns acted upon when necessary.

Alcohol Abuse

If a parent or carer arrives on the school premises inebriated, the Headteacher, or their representative, will be contacted immediately to deal with the situation. The child will be the school's paramount consideration. Suitable measures will be taken to ensure the safety of all staff, parents and children. The police will be contacted if it is deemed appropriate.

Finding substances

Gloves should always be used for protection.

If an adult or child discovers suspicious paraphernalia the Headteacher or Deputy Headteacher should be informed immediately. The items should be removed without delay to a place of safe keeping in the presence of a witness from the teaching staff. If the substance is known or suspected to be illegal, the police (preferably the school liaison officer) could be informed if the Headteacher or Deputy Headteacher feels it is necessary.

The following details below should also be recorded:

date and time of the find
size and appearance of the substance
names of those concerned
action taken

If any equipment associated with drug misuse is discovered, the items should be handled with care and the incident should be recorded. Items such as needles and syringes should be placed in a secure and rigid container and the appropriate person contacted for removal.

Searching

Storage areas within the school grounds, including allocated trays for children, are the property of the school, and the Headteacher or Deputy Headteacher may authorise a search of these if there is reasonable suspicion. The search must be carried out in the presence of a witness and the named pupil, if this applies. Staff should try to persuade the pupil to voluntarily produce the substance by asking him / her to turn out his / her pockets and bag. If it is absolutely necessary to search a pupil, a police officer will be required and parents must be informed as soon as possible. The police officer will only be able to carry out a search if there are reasonable grounds to suspect the pupil is in possession of an illegal substance.

Finding Drug Misuse

If children are found in possession of tobacco, alcohol, glue, solvents or prescribed or over the counter medicines, parents will be informed and the Headteacher or their representative will decide what further steps need to be taken.

In an emergency arising from an incident involving abuse, the well being of the pupil is paramount.

In all instances:

separate the child from the group;
decide and implement the next best step in terms of the child's welfare;
inform the child's parents.

Supplying illegal substances

It is an offence to produce or supply a controlled drug on school premises. The police will be involved in such circumstances.

Returning articles which have been confiscated

If confiscated articles are legal and not required by the police, they must be returned to parents. Parents will be informed in writing within 24 hours of the confiscation and an explanation will be given as to why it is inappropriate to return the articles to the child. It will be made clear that the time limit of collection is one week. After this time, the school will dispose of the article.

Medical Emergencies

If an individual has taken a harmful toxic substance or is otherwise at immediate risk of immediate harm (is unconscious, is having trouble breathing, is seriously confused or disorientated) medical help will be sought and first aid given if required. The priority will be the pupil's safety. Parents will be notified immediately.

Disclosure

When a pupil discloses to a member of staff that he/she has been using drugs or is concerned about someone else's drug use staff will be non-judgemental and caring and show concern for the pupil.

Pupils know that staff cannot promise total confidentiality. The Headteacher or a DSL should be informed as soon as possible so that appropriate support can be found.

Staff should not assume use of drugs on the basis of rumours or behaviour alone; however, if there is a suspicion, evidence will be collected over a period of time before a decision is made. Our school rules for drugs apply to all people who are on the school premises and we expect that parents/carers will adhere to these rules. If we are concerned that a pupil is at risk then we will follow the school's Child Protection procedures.

We are sensitive to the needs of pupils who live within families where there is evidence of drug abuse. Where problems are observed or suspected or if a pupil discloses, we will assess the pupil's welfare and support needs and, if needed, involve external support for the pupil, and where appropriate, for the family.

Location and Dissemination

This policy will be made available to staff, parents and governors via the school website.

MONITORING AND EVALUATION

This policy and its effectiveness will be reviewed by the headteacher, assistant headteacher and the Governing Body.

Policy written by: Eve Busby
